

JOHANN BORDAIS
CEO
Eve Air Mobility

Johann Bordais was appointed CEO of Eve Air Mobility effective September 1, 2023. Previously, he led Embraer's Services & Support business since its foundation in 2016. He was pivotal in transforming the unit into Embraer's fast-growing and most profitable business of the company.

During his tenure at Embraer Services & Support, he transformed Embraer's aftersales business model, globalizing its solutions and guaranteeing customer satisfaction through innovation and integrated products, and providing a broad portfolio of solutions to customers in Commercial Aviation, Executive Jets and Defense, with more than 2,300 people dedicated to supporting customers and their 5,700 aircraft worldwide. From 2018 to August 2023, Johann was also the president of the OGMA board, in Portugal, which provides agnostic maintenance, repair and overhaul services for civil and military airplanes and engines.

Prior to leading Embraer's Services & Support business, Johann was responsible for Customer Relationship Management, Technical & Maintenance Support, Materials, Flight Operations, Flight Operations Engineering & Support, Technical Services & Training, and Solutions Business development & Analytics. Additionally, he oversaw the Customer Care Center in São José dos Campos and Embraer's global network of Authorized Aircraft Service Centers.

For 13 years, he was responsible for Embraer Services & Support office in Paris, managing after-sales and operations for commercial aircraft customers in Europe, Africa, the Middle East and Central Asia and prior to his move to Europe, Johann was the Senior Manager for Aircraft Sales Support & Contract Administration, and Manager of the Customer Order Desk.

Before joining Embraer, Johann worked at Raytheon/Beechcraft's Authorized MRO facility in Paris and at an aircraft engine spare parts company in Dallas, TX.

About Eve Air Mobility

Eve is dedicated to accelerating the Urban Air Mobility ecosystem. Benefitting from a start-up mindset, backed by Embraer S.A.'s more than 50-year history of aerospace expertise, and with a singular focus, Eve is taking a holistic approach to progressing the UAM ecosystem, with an advanced eVTOL project, comprehensive global services and support network and a unique air traffic management solution. Since May 10, 2022, Eve is listed on the New York Stock Exchange where its shares of common stock and public warrants trade under the tickers "EVEX" and "EVEXW".
