

FLITECHART

HIGH-RESOLUTION, FULL COLOR CHARTS, ALWAYS UP TO DATE

FliteCharts® is an integrated electronic charting solution that provides pilots with high-resolution, color terminal procedure charts in the familiar NACO paper format. Preloaded on compatible Garmin units, FliteCharts® offers immediate access to updates via flyGarmin.com®, refreshed every 28 days.

Database includes:

- Standard Terminal Arrivals (STARs)
- Departure Procedures (DPs)
- Approaches
- Airport diagrams

KEY BENEFITS

- ✓ Familiar format for ease of use
- ✓ High-resolution, color display
- ✓ Convenient access with regular updates
- ✓ All-in-one database of procedures and diagrams
- ✓ Paperless cockpit for a simpler workflow

INSTALLATION

The Service Bulletin for the Flitechart is **SB 500-34-0003** (USA only)

OUR GOAL IS TO MAKE YOUR LIFE EASIER
