

CARLOS NAUFEL

President & CEO of Embraer Services & Support

Carlos Naufel is a mechanical engineer graduated from UFRGS and has built his entire career in aeronautical maintenance. He began his professional career in 1996, at VARIG, and worked from 2000 to 2019 in the maintenance and technical services area at Embraer.

Between 2017 and 2019, he was vice president of Technical Solutions, being responsible for maintenance engineering, fleet performance and technical support for Commercial, Executive and Defense Aviation customers. His last position was vice president of technical solutions. He took over the management of maintenance at Azul in 2019, where he remained until 2023, when he returned to Embraer as CEO of Embraer Services & Support.
